

April 2022

**RE: COVID-19 Message**

Equity Cooperative Livestock Sales Association continues to keep the health and safety of employers, producers, and buyers its top priority. In an effort to minimize COVID-19 in our facilities and in the communities we serve, we encourage our employees, producers, and buyers to stay home if they are sick, socially distance, and follow CDC recommendations as they are updated. Please do not enter our facilities if you know you have recently been exposed to COVID-19, are experiencing symptoms, or have recently tested positive per current CDC guidelines. Face masks are not required but are welcome to be worn in our facilities. Hand sanitizer will continue to be available at our locations as well.

We support and respect our employees', producers', and buyers' decisions in choosing the appropriate health and safety measures to protect against COVID-19.
